

## Call for documents, materials and information

The recently founded Terezín Composers Institute (TCI) is pleased to announce the call for documents, materials and information regarding the works of composers who were prisoners at the Terezín concentration camp in the years 1941 - 1945. All of these are of utmost significance for the research and work to be done at the TCI and within its various initiatives.

The TCI aims at collecting materials and information in order to establish comprehensive archives including

- Audio and video recordings of compositions of Terezín composers (all available formats, old or new)
- publications (books, articles, catalogs and miscellanea) of all times, places and languages regarding any aspect of the subject matter
- scores, accompanying materials (such as texts and composer's notes) and recordings of music works related to the Terezin ghetto
- any piece of art inspired by the music of Terezin composers and/or their lives
- detailed entries on past and future performances of music by Terezín composers

Detailed information regarding existing documents and materials is also of great interest for the TCI.

Please send any information, documents and materials or address your queries to Ms. Petra Husáková:
